## ABOUT US POWER CARE.

We are pleased to introduce ourselves, One of Saudi Arabia's frontrunners in the Temporary Power Rental business with a combined fleet capacity of over 300 Megawatts and Balance of plant that includes Medium voltage transformers, power cables, switch gears and bunded fuel tanks. Our business is driven by highly skilled, professionally qualified and experienced sales, projects and after sales service team. Our inventory features diesel generators in sizes from 35 kVA to 1500 kVA, powered by Volvo Penta Sweden & Germany, Cummins UK/Perkins and Volvo Eicher, which are equipped with paralleling and synchronizing capabilities to provide power for multi megawatt projects. Power Care has a successful track record of executing major projects in Saudi Arabia, and a long list of satisfied customers. Our Sales and Support Staff are available at your service 24/7, operating from our Offices/Workshops in Jubail, Yanbu, Riyadh and Jizan region of Kingdom of Saudi Arabia., we also undertake complete turnkey solution that include system design-ing, application engineering, mobilization, installation, start-up and commission-ing, operation and maintenance, Fuel management including demobilization. We are a true one stop shop for all temporary power needs.

## WHAT WE DO

With 20 operational bases covering UAE, KSA, Kuwait, Qatar, Oman and Bahrain, our business focuses on the rental needs to a wide range of industries including oil & gas, construction & infrastructure, events, manufacturing & logistics, retails & commercial, marine & ports, defence & military and medical.

Totalling over 1000 items, our mechanical and non-mechanical fleets include power generation, temporary buildings, sanitation, climate control, air and steam, hoist and access, Mobile lighting Tower, Transformer, Diesel Generator, Load Bank Rental, Compressor, fuel Management Services and material handling with the option of both short term or long term hire.

## DIESEL GENERATOR ON HIRE

### POWER RENTAL:

Our rental generators range in size from 35KVA to 1500KVA and have the capability to scale up to multi-megawatt power plants.

### POWER PACKAGES:

Complete power packages can be supplied if required, including secondary power distribution and transformers, bunded fuel tanks, drip trays and cables.

Our in-house technical team can provide a pre-hire advisory service to ensure your requirement is carefully specified with an appropriate fuel management plan.

## AIR COMPRESSOR ON HIRE

Our portable diesel air compressors demonstrate high productivity in its class and are built to last with low service intervals. With superior technology, these reliable and rugged portable machines have high fuel efficiency and are easily manoeuvrable on even the remotest of sites. Ranging from 185CFM to 1250 CFM, our range of medium and large portable air compressors are designed for the toughest terrains and the most versatile applications.

### VERSATILE APPLICATIONS:

- ✓ Sand blasting
- ✓ Stone quarry
- ✓ Oil and gas
- ✓ Waterwell drilling
- ✓ Pneumatic chip breaking
- ✓ Coal mining
- ✓ Shotcreting
- ✓ Pipeline services

## TOWER LIGHT ON HIRE

### SALIENT FEATURES OF MOBILE LIGHTING TOWER WE RENT:

- ✓ Wide range of capacities.
  - ✓ Wide range of capacities. Excellent operational reliability and safety.
  - ✓ Accessible at ground level. It can be easily inspected and maintained.
  - ✓ Compact design consuming very little space.
  - ✓ Ease of installation and maintenance.
  - ✓ Ease of transportation.
- Unmatched cost-to-performance

## WELDING MACHINE ON HIRE

Power Care is a specialized supply and servicing company devoted to the metal industry for cutting and joining all types of materials.

Power Care Co. main products are the Welding & Cutting Machines, Accessories and Consumables. You can choose from the following range of Welding machine from ARC(Inverter, Rectifier, Engine Driven Welder), TIG, MIG/MAG, Welding Automated, Column & Boom and Orbital Welding System. Our Cutting Machines with the following Plasma, Oxyfuel, combined Plasma & Oxyfuel, Automated Cutting and Pipe Beveling Machines. This machines will give your required needs and ensure high performance, low cost, more productivity, more efficient and more success in welding and cutting.

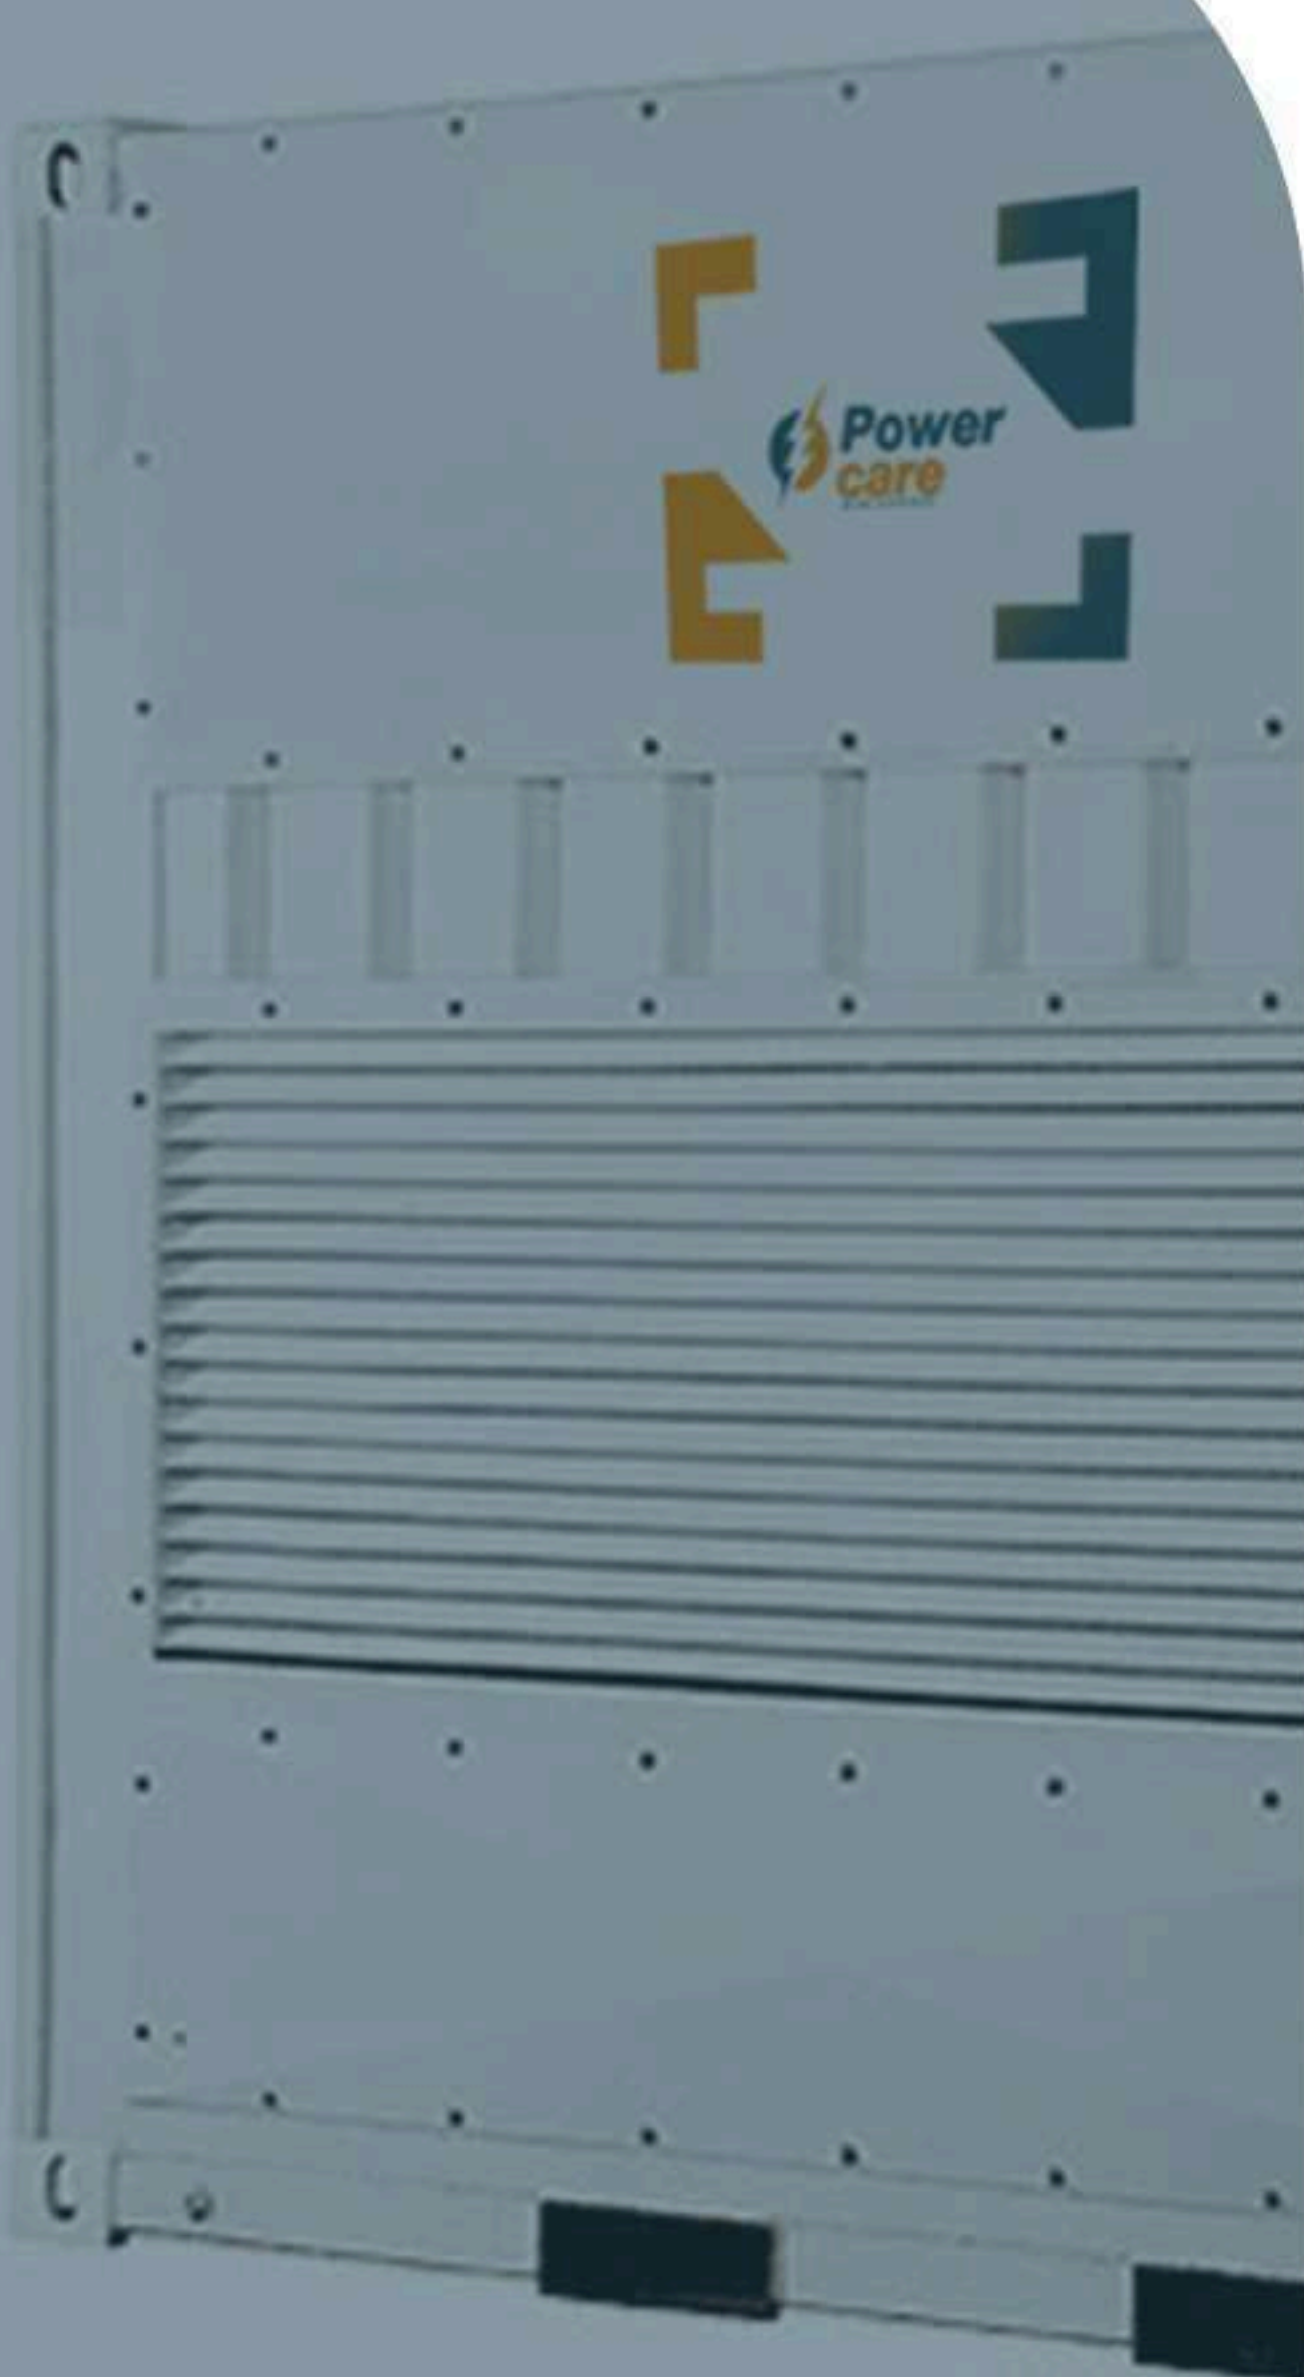

## LOAD BANK ON HIRE

Our load bank rentals range in size from 36kW to 6,000kW, with various power-factor testing capabilities. Compatible transformer rentals are also available, and the units are durable and weatherproof. Up to five units can be linked and operated from one control panel. Our smaller units are portable and compact enough to fit through a standard door.

Our team of power specialists have extensive experience delivering load testing projects for a range of sectors, including manufacturing, renewables, data centres and shipping.

### OUR RESISTIVE AND REACTIVE LOADBANK CAN BE RENT FOR:

Maintenance testing of power equipment Testing lower power factor simulation, frequency converters or full electrical system integration Pre-commissioning and commissioning of newly installed renewables projects, including wind turbines and solar panels Commissioning of newly installed power systems, including turbines, diesel generators, motors and uninterrupted power systems (UPS) in particular for critical sites such as data centres Testing cooling systems, including chillers and air conditioning systems.

## TRANSFORMER ON HIRE

### POWER CARE TRANSFORMER.

Power Care Co Ltd. is one of Ksa's leading transformer rental company. We provide low, mid and high voltage transformers on hire. Our fleet of industrial power transformer is customized specially for rental making them easy for shifting from one location to another. Our transformers for hire come as a complete system along with HT, LT panels with NGR and NIC panels inbuilt into the containerized transformers making it easier to install at any location.

Our power transformers for hire come in various capacities ranging from 1 MVA to 5 MVA.

### SALIENT FEATURES OF TRANSFORMERS WE RENT:

- ✓ Available in capacities ranging from 1 MVA to 5 MVA.
- ✓ Compact design consuming very little space.
- ✓ Ease of installation and maintenance.

## FUEL MANAGEMENT SERVICE

Power Care's Fuel Management Service provides fast and efficient fuel management service to all industries for planned or emergency needs.

Order your fuel with us and we will monitor your usage and also monitor your reliability of operations. Power Care's fuel management services take away the hassle of managing your fuel supply, enabling to focus on your resources on other your core areas of business.

### BENEFITS :

- ✓ Never worry about arranging future fuel delivery again.
- ✓ Transportation, handling of diesel/fuel at site hassle free.
- ✓ Storage of fuel up to 2KL in approved tanks.

# AIR COOLED CHILLERS ON HIRE

## POWER CARE COOLING SOLUTIONS

Power Care leading in providing rental temperature control packages and temporary district cooling solutions. Our cooling packages are used to cool and maintain the temperature of facilities in a range of environments from music events, to construction, production, shut-downs and to military bases in the middle of the desert.

Chillers are available from 20TR to 300TR and can be configured to meet the most demanding requirements and environments and all installations have the added benefit of remote monitoring options should it be required.

Power Care also provide mobile energy transfer stations, air handling units available in 50 tons to 200 tons, skid mounted heat transfer units, and multiple air conditioning units 20TR, 28TR & 50TR (Packaged Air Conditioning Units with Power) available in different capacities for various cooling applications.

| 26. | Step- Up Transformers & LV/MV Power cables            |                       |

## Annual Maintenance Contract

(Generator / Air compressor & Etc.,)

- We shall be covering all periodical maintenance of both Engine & Alternator as per Manufacturer's Recommendation through various visit slots 12/6/4 per annum.
- We also provide AMC services for electrical LV panel, control panels standard / AMF / Sync Panel.

**Contract Maintenance Packages:** We offer a range of generator maintenance and servicing contracts to suit every customer requirement from simple repair through to 24 hour 365 days a year service contracts with guaranteed response times to site. All our generator service and maintenance contracts are backed up by our 24-hour call out and support team.

## Troubleshooting & Diagnostics

(Generator / Air compressor & Etc.,)

Troubleshooting / Diagnostics services are provided for Equipment (Engine / Alternator / generator Controller) with our trained engineers using software tools wherever applicable team.

**Contract Maintenance Packages:** We offer a range of generator maintenance and servicing contracts to suit every customer requirement from simple repair through to 24 hour 365 days a year service contracts with guaranteed response times to site. All our generator service and maintenance contracts are backed up by our 24-hour call out and support.

## Generator Operational Maintenance Contract

(Generator / Air compressor & Etc.,)

We provide services covering the entire day-to-day operation of the Engine / Alternator / Generators controllers which includes spares, service & manpower customised to customer requirements

## Electrical Repair & services

- Generator control panel programming (Deep Sea, ComAp, DEIF & Etc,,)
- ATS Panels
- Generator Synchronisation Panels
- Distribution Boards
- Change Over Switches
- 50 Hz & 60 Hz Generator Programming

We provide all kinds of electrical repair & solutions for various sectors, our engineers are specially trained & certified capable to do the repair, modification, programming & troubleshooting the various electrical equipment/panels like;

## Equipment's testing & Paid services

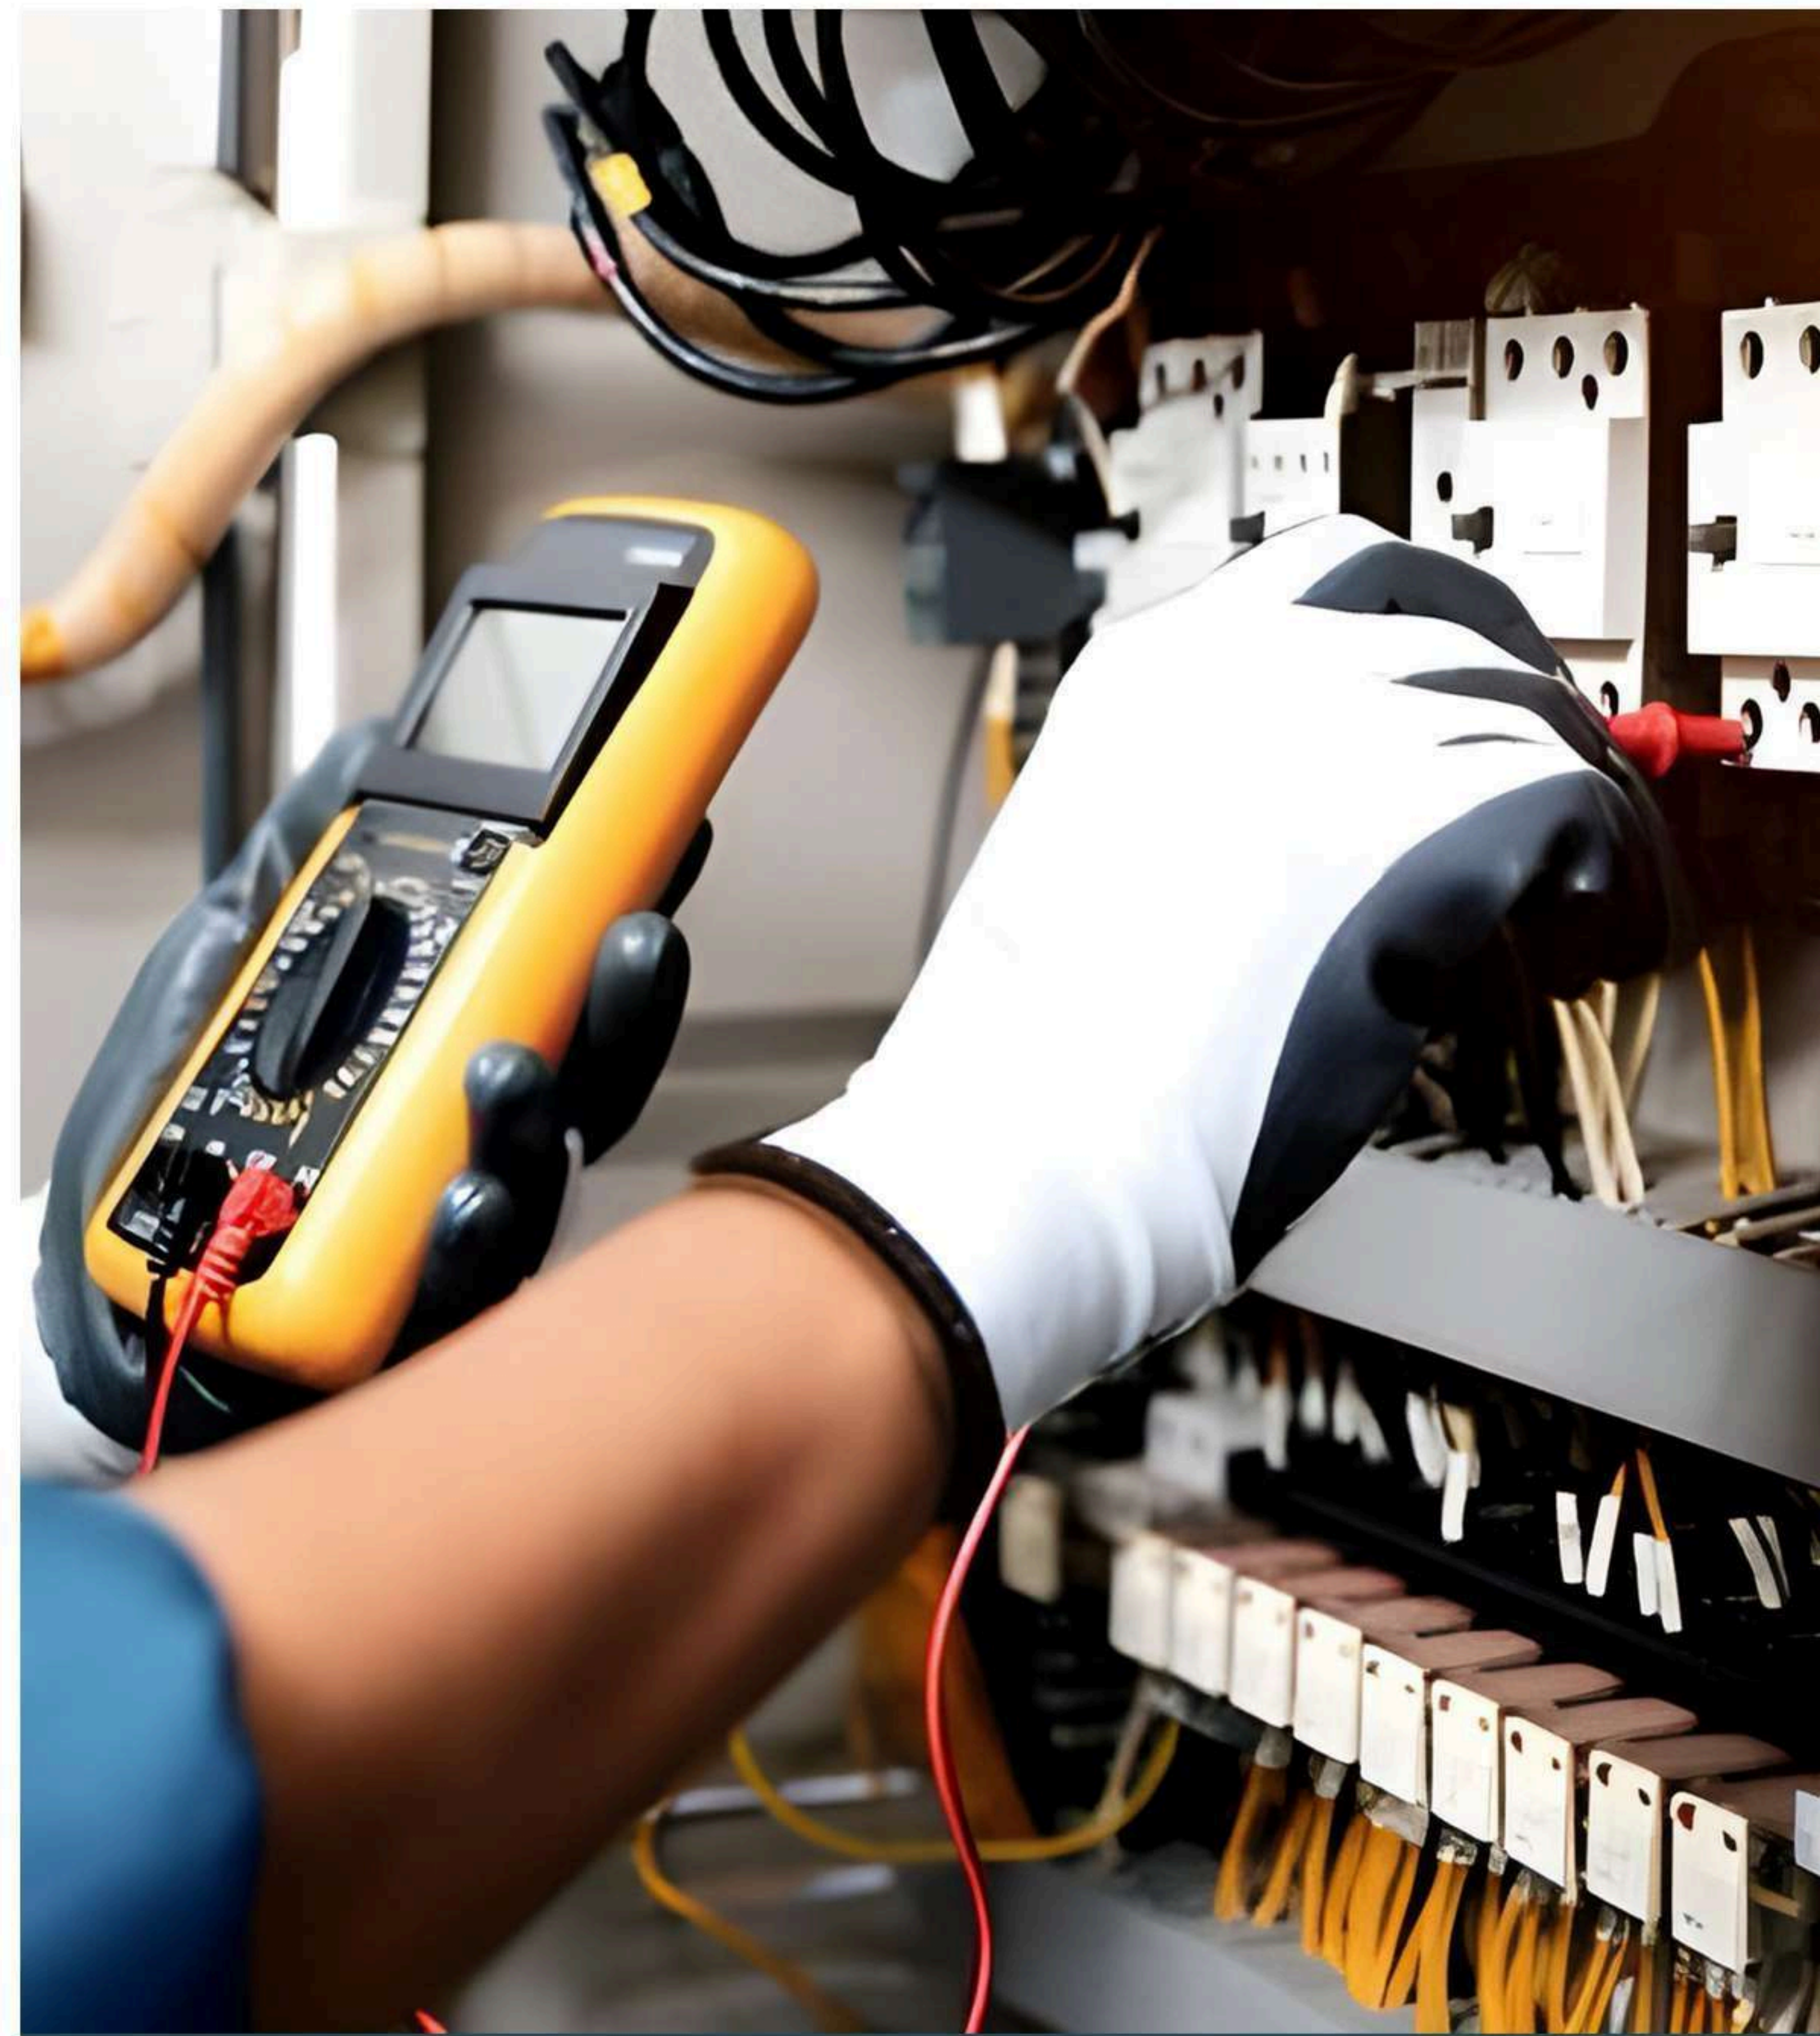

- Electrical Equipment's IR & WR Testing (Megger Testing)
- Noise Testing (DB sound Test)
- Vibration Test
- Engine Exhaust Backpressure test
- Engine Blow-by Test

## Spare parts Supply

Power Care is strictly oriented to customer satisfaction, we provide the spare parts for all diesel Generator models/brands, engine, alternator and controllers. Our commercial purpose consists of genuine spare parts. A wide range of spares can be provided, from ordinary replacement filters to overhauling spare parts kit (Top/Major).

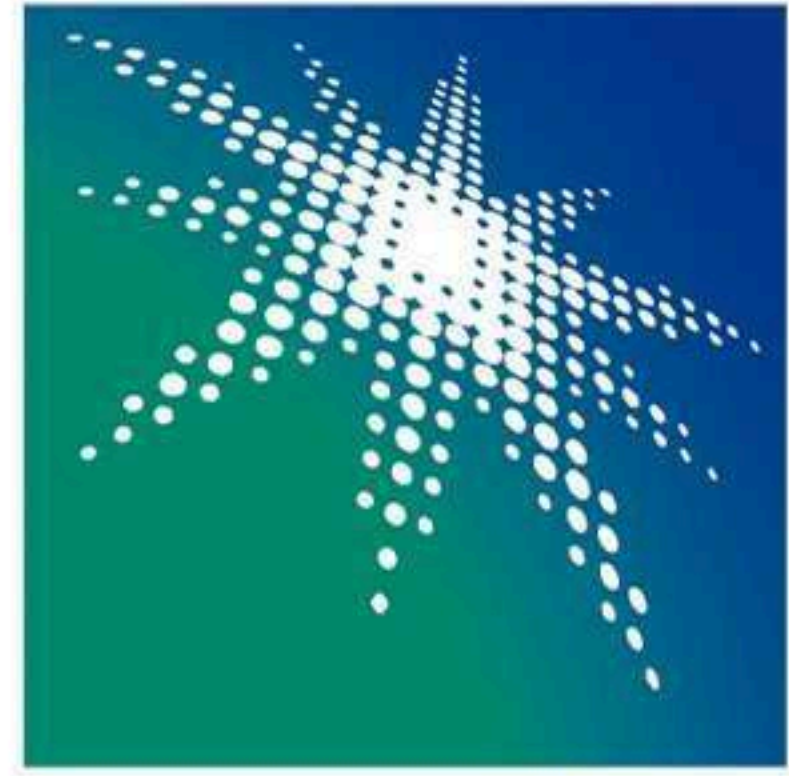

## Mechanical Repairs & Paid services

- Diesel Generators
- Air Compressors
- Welding Machines
- Tower Lights
